

## OUR SECOND ANNUAL SALE — OF — SILKS

WILL BEGIN MONDAY, SEPTEMBER 11th, AT 8 O'CLOCK.

At this hour we will place on sale a lot of the past season's silks, which we wish to close out to make room for our shortly expected Fall Stock.

Our sale of these goods last year was a record breaker, and though we do not now have as large an assortment as then, nevertheless the chances are good that you will find just what you want.

All goods are in first-class condition, and can be seen in our show windows.

## SANITATION AND FOOD

### Reports of Officials to the Board of Health.

"The general sanitary condition of Honolulu is good," President Pinkham informed the Board of Health yesterday. "The streets might be cleaner, but they are not under control of this department. The city will never be in first-class condition until the low lands, extending back from the beach and at Waikiki are filled, drained and the waterways straightened and walled so there is a free flow of water. As this filling is mostly on private property for which there is no present demand it is beyond prediction as to when anything can be accomplished. At our next meeting I will describe some special work completed at Waikiki."

The report of Dr. Pratt, chief sanitary officer, gives the following facts relative to Honolulu for July:  
Inspections, 7469; orders given, 1547; orders finished, 1512; orders outstanding, 52; pig permits issued, 9; number of pigs allowed, 238; duck permits issued, 3; number of ducks allowed, 1300; days of special duty, 344.

The sanitary inspector for Hilo reports 912 inspections and 175 orders carried out in that town in August, and 464 rats killed the past two months.

#### FOOD INSPECTION.

R. A. Duncan, food commissioner and analyst, in his report to the Board of Health for July gives details of 118 milk samples examined, of which two found below standard were from A. Tavares and F. Correa. Fifty milk samples were examined on Sunday for the presence of preservatives only, but in no case was an antiseptic present. The rest of the report follows:  
"One sample compound coffee was examined and found properly labeled."  
"In connection with former investigations of witch hazel I have examined three samples of new importation by request; two of these samples being up to standard and one below."  
"One sample of alcohol was found to agree with the requirements of the United States Pharmacopoeia."  
"One analysis was made in accordance with the requirements of Act 67, S. L. 1905."  
"One analysis was made in connection with a coroner's inquest."

#### PLUMBING INSPECTION.

E. G. Keen, inspector of buildings, plumbing and house sewers, reported to the Board of Health the following detail of the work of his office for the month of August:

Plumbing plans approved and permits issued for same.....	45
Plumbing work finished and accepted.....	33
Number of fixtures in above.....	93
Sewer connections made.....	19
Building permits received and approved.....	13
During the month the following inspections were made:	
New plumbing.....	166
Old and defective plumbing.....	43
Sewer connections.....	19
Buildings and building sites.....	42
Nuisances.....	6

Total inspections for the month, 277

Talking to some cardinals who came to congratulate him on his 70th birthday Pope Pius said: "I never thought I would learn as much in my old days as I am doing. For instance, I can now write my name without musing up a cassock worth 200 francs. For years I indulged in the habit of wiping my pen on the left sleeve of my coat before I began and during writing. Of course that didn't matter much as long as I wore black clothes, but when I donned the white papal habit things looked different, and so did I when I came from my writing room. For a time my valet didn't know where to get enough clothes for me to wear. Then I determined to break with this bad habit, and I did. One can give up anything if one tries hard enough."

### For Your Protection

We place this label on every package of Scott's Emulsion. The man with a fish on his back is our trade-mark, and it is a guarantee that Scott's Emulsion will do all that is claimed for it. Nothing better for lung, throat or bronchial troubles in infant or adult. Scott's Emulsion is one of the greatest flesh-builders known to the medical world.

We'll send you a sample free.

SCOTT & BOWNE, 409 Pearl Street New York

## WANT SOME CORN LAND

### Chance for Islands to Get Distillery Here.

Any one with a thousand acres of good corn land for sale can be brought close to the money if he will so advise the Hawaii Promotion Committee. A large distillery from on the mainland wants to get hold of land in the islands suitable for growing corn, real good, corn, and if so, they stand ready to erect a distillery in which they will also stand ready to put forth a very fine quality of whisky.

### JAP LABORERS WILL CONTINUE TO COME

F. M. Swanzy, president of the Hawaiian Sugar Planters' Association and a prominent member of the Chamber of Commerce and of the firm of Davies & Co., returned yesterday from Japan. Mr. Swanzy, in answer to an Advertiser man's question as to whether he had gone there on any special mission, answered in the negative.

Mr. Swanzy gave some very interesting descriptions of conditions in Japan in war-time. He said the people were very anxious about the peace negotiations and there was excitement of a suppressed kind manifest everywhere.

"Of course, now that the war is over, there will be nearly a million soldiers who will be returned to Japan," said Mr. Swanzy. Most of them will go back into various peaceful pursuits, but undoubtedly there will be a large number who may want to emigrate to other parts."

Mr. Swanzy said he wouldn't be surprised to see a renewal of large immigration to Hawaii and to the mainland and to other places where Japanese are finding work.

"There is no restriction on the part of the government against Japanese emigrating," he continued. "The government issues passports to any who wish to leave the Empire."

Mr. Swanzy enjoyed the trip and had only praise for the sailing qualities of the Manchuria.

At the instance of Mr. Swanzy, Mr. Yun Tchi Ho, an attaché of the Korean Foreign office at Seoul, a through passenger on the Manchuria, decided to stop off and examine into conditions under which Koreans are laboring in Hawaii's canefields. He has taken rooms at the Hawaiian Hotel and will shortly leave for Maui and Hawaii, or wherever Koreans may be found. He stated yesterday that there were no stories of ill-treatment of Koreans in Hawaii. He had heard of ill-treatment of Koreans in Mexico and he was going there to investigate. Mr. Yun Tchi Ho speaks English very well. He was a student in Georgia for some time and lived in various places in the United States, and has also been in Great Britain.

### MERCHANTS APPOINT PROMOTION MEMBERS

At the meeting of the directors of the Merchants' Association held yesterday afternoon, Messrs. A. Gartley and J. A. M. Johnson were selected as the Merchants' Association representatives on the Hawaiian Promotion Committee. The Chamber of Commerce representatives are E. I. Spalding and J. A. McCandless. These four will choose the fifth member. The quarterly meeting of the association will be held at 3 p. m., September 14.

### APPOINTMENT OF DOCTOR

(Continued from Page 1.)

the rat and mosquito crusade he determined to start on July 1, upon the decision of the planting interests to make use of the Isthmus of Tehuantepec route. A balance of \$1853.78 was placed at his disposal by the Honolulu shippers' wharf committee.

At the present time the mosquito campaign is being carried on up to the limit of resources.

It is proposed to make a thorough survey of the city for mosquito breeding places and D. L. Van Dine, of the U. S. Experiment Station, an enthusiast in this work, has kindly volunteered his aid.

Statistics were given of a vigorous mosquito campaign in Hilo for August.

"Hilo," the president says, "is in good sanitary condition, and the people actively and effectually alive to their own interests in the matters recorded."

L. E. Pinkham, president; Dr. J. R. Judd, Mark P. Robinson, Attorney General Andrews and Dr. J. T. Wayson constituted the meeting.

## CHILDREN'S WEAR
